

# Welcome to 'An Introduction to Solving Biological Problems with Python'

- Please note – no food or drink in the E-learning Suite (We will have coffee and tea breaks (and cookies) served outside the room).
- There are no planned fire-drills so if we hear the alarm it is to be treated as a real fire.
- The toilets are located one floor down (Go down spiral stair-case near the reception & follow signs - basically left then left). There is a lift.
